God's Universal Laws

The Law of Kingdom (Earth)

This Law is the Law of Direction or the how to Act Law or the how to Think Law. It explains to us why we are to care and love one another. This Law contains the rules by which we are to live our lives while here in the physical form.

This Law tells us that that the only thoughts we should have in this physical world are thoughts of healing. Healing in this sense is of the mind. For it is the mind which controls our every thought, action, communication, whether we are sick or healthy, loving or hateful, getting or giving, caring about ourselves or not and many more things. At the root of all thought is to heal of mind. This healing is not only of our mind but those of all people. This is the calling that Jesus made when he told us to follow him, he would make us fishers of men and heal the mind of men to see the way of God.

We deal with a dual mind. One that was given to us by God (Universal Communication System) and the other we created called Ego (Physical Communication System). God's man is nothing but truth seeing everything as if we are seeing God Himself. The ego mind is full of perceptions that we develop when we decided that we wanted to control our life. This is the separation from God as spoken about in the Biblical teachings regardless of what religion you may affiliate with. When we see ourselves or when we look upon others as being sick, we are perceiving us as not whole and therefore in need of whatever. By doing so, we separate ourselves from the Kingdom of God. We obscure the Kingdom from our mind and our body. Sickness is not of the Kingdom. It is a perception we give from our ego perceiving what is NOT of God. So to heal, whether it be incorrect thoughts about the truth of God or from illness to our bodies is to share the connection with the Holy Spirit within us. It is this connection which intercedes for us to God which though us then works the Miracles required. When we are connected with the Holy Spirit we are now within the Kingdom and, in doing so, the Holy Spirit restores its wholeness in

our mind (links the control of our Physical Ego Mind to that of our Spirit). We are unified with God.

A Course of Miracles tell us that, “Outside [EGO] of the Kingdom, the law that prevails inside [OUR INNER SOUL] is adapted to ‘What you project you believe.’ This is its teaching form, because outside the Kingdom learning is essential. This form implies that you will learn what you are from what you have projected onto others, and therefore believe they are. In the Kingdom there is no teaching or learning, because there is no belief. There is only certainty. God and His Sons, in the surety of being, know that what you extend [share, give] you are. That form of the law is not adapted at all, being the law of creation. God Himself created the law by creating by it. And His Sons, who create like Him [God], follow it gladly knowing that the increase of the Kingdom depends on it, just as their own creation did.”

We came into this life KNOWING this law, but the ego mind has translated this law for its own purpose and now truth. We cannot change our minds nor live in the Kingdom by ourselves because our minds (yes our right mind that of God and our ego mind made from us) are conflicted. Our mind cannot be faithful to one meaning and will therefore always change the meaning to what we want it to be – our perspective. This is the reason the Holy Spirit was provided to us. It is the Holy Spirit's purpose to translate the Laws of the Kingdom to their original meaning regardless of what language we speak in the physical world. God's Law of Creation does not involve the teaching of truth to us to convince us to do what he requires from this Law. The reason is that the Kingdom is only of truth and it rests only on the knowledge of what truth is. This is our inheritance of God and it requires no teaching us to learn about it at all. It is only when we have disinherited what is rightfully ours (The Kingdom of God and all that is in it) that we now must learn out of necessity.

Because we have separated ourselves from the right mind of God we now have to learn. However, we do not have to learn to do new things all we have to do is learn that we have a memory and in that memory is all the Laws of God and how to co-create our life experiences.

Therefore, the Holy Spirit is teaching us a lesson in remembering not a new skill. There is no confusion in the Kingdom because there is only one meaning. It is in this meaning we seek to be taught by the Holy Spirit to remember and forget about everything we have clouded our memory with our ego.

It is all the Universal Laws that we must abide. In doing so, our Source's entire Universe is at our disposal – it becomes our playground of Life. The Will of God does not vacillate. When we are not at peace it is because we choose to not believe He is not within us. Yet we are told He is in all things. His laws govern us because they govern everything. We cannot exempt anything in this world from His laws. We can disobey them and when we do we feel lonely and helpless, because we are denying ourselves everything of this Universe.
