- January 13, 1917 Federal Reserve Bank Director and Founding Member of the Council on Foreign Relations wrote "Russia is pointing the way to great and sweeping world changes. It is not in Russia alone that the old order is passing. There is a lot of the old order in America, and that is going too"
- Bolsheviks coming to power Standard Oil purchased, under the direction of the House of Rothschild, purchased the Russian oil fields, set up refinery's and sold the oil back to Europe.
- 1918 World War I birthed the Military Industrial Complex
- 1918 End of World War I Americans lost 116,000 and wounded 204,000/Europe lost over 8 M soldiers and 6 to 10M citizens.
- Treaty of Versailles July 28, 1918 peace treaty for WWI – Financial windfall for the bankers
- 1920 Establishment of the League of Nations – precursor to the United Nations
- May 30, 1919 The Shadow Government was formed – Council on Foreign Affairs.
- February 6, 1929 Federal Reserve Board cut money supply and raised interest rates after meeting the US Treasury Secretary. Black Friday occurred with stock crash and death.
- 1930 Bank of International Settlement (BIS) was formed by the House of Rothschild. Memberships were all central banks. Focused on stabilizing the world economy. Power over the world purse resided here. It could allow a country to prosper or drive it into a tailspin. The activities superseded all political, moral and religious ideologies.

1933

- House of Rothschild took over the country. FDR required packing his cabinet with CFR people.
- Banks stop exchange paper money into gold coin.
- Agricultural Adjustment Act – Killing of livestock
- National Industrial Recovery Act (NIRA) – the implementation of the FDR New Deal
- NIRA hiring its own police force to enforce the regulation – Police State.
- New Deal tried to impose a fascist government on American people
- Internal Revenue Service Act
- Chase became the financial headquarters of the House of Rothschild.
- FDR confiscated American citizens gold. Never returned to the people.
- Citizens were banned from owning gold. If found to own gold citizens were prosecuted.
- FDR with the help of the CFR secretly moved America from the gold standard.

- The secret shipments of gold to Rothschild permitted the House of Rothschild to issue bonds and notes from the BIS to all central and commercial banks to bolster failing economies.
- House of Rothschild through BIS created the foundation for an occult economy.
- Mother Boxes and Baby Boxes of Bonds backed by Gold were created for those countries or wealthy individuals who sent their gold to the central bank for safekeeping. Mother Boxes were valued at \$1B and Baby Boxes at \$100,000, \$1M, \$100M and \$1B.
- Had the countries or wealthy individual cashed these bonds the value of the bond with accrued interest would have crashed the US economy. This setup the world to have to use the US Dollar for international exchange on trade and fortify the United States as the economic bedrock of the world which was then ravaged by war and depression. The House of Rothschild had achieved their objective of becoming the one world bank.
- Fake Gold certificates. In order to control the whole value of wealth the Bonds placed in the Boxes were purposely fake. They had glaring spelling errors and bad grammar so that if a bank representative were to try to validate they would be dismissed as fake. Rothschild scheme was uncovered in 2000.

1939

- Hitler invaded Poland and World War II begun. This violated a war guarantee between British Prime Minister Chamberlain and the Polish government. Six months after issuing this guarantee no support had been given to Poland allowing Hitler to invade.
- Hitler invasion of Poland was caused by the Treaty of Versailles.
- Hitler conditions of stopping the war were rejected by Poland and WWII went to the next level.
- The reason for the beginning of WWII was completely financial. Rothschild central bank in Germany (Reichsbank) would not loan to the German government three billion Reichsmarks. Central bank placed restrictions on the German government as part of the loan and the German government refused the conditions and kicked out the central bankers from Germany.
- Within two weeks of the war breaking out from Poland the CFR met with the US Secretary of the State George Messersmith to setup a study/planning group as to how to get the United States into the war – known as the War and Peace Study Project. ALL FUNDED BY THE HOUSE OF ROTHSCHILD. Rothschild wanted his German central bank back.
- WWII was essential in creating a one world government. Any country that sought to safeguard the purity of its race must be obliterated. Otherwise, the New World Order could not come into being.
- Roosevelt met secretly with Churchill to get the USA into the war. Tyler Kent, American Embassy in London dispatch, found the correspondence and tried to smuggle them out to get to the American people but he was caught before he could complete the task.

1941

- Roosevelt advisor, Harry Hopkins, met with Churchill and gave assurances US would enter the war. Now Roosevelt had to create the reason.
- CFR agreed to send 50 ships to Britain to beef up their naval fleet. Ammunition was also provided on freighters to Britain forces.
- FDR ordered the closing of all German consulates so that German officials would have no means of protesting the Britain aid.
- Roosevelt ordered the occupation of Iceland to deploy depth charges on German navy. Hitler didn't take the bait.
- On June 13, 1941 the Office of Strategic Services (OSS), America's first intelligence agency later to be renamed to the CIA. Offices were located at Rockefeller Center in New York since it was Rockefeller through the House of Rothschild who funded the agency.
- Roosevelt forged maps and documents that he told the American people in a radio address on October 27, 1941 that were confiscated from the German government. The map was the takeover of all countries. The documents were the plan to abolish all religions.
- Due to a pact signed by Japan, Italy and Germany the Japanese government was tied to the Germans for support.
- CFR understanding this and wanting US in the war, put economic sanctions on Japan in July 1941. This caused economic hardship on Japan by losing three quarters of its international trade. More sanctions were placed on Japan by freezing all their assets and closing of the Panama Canal to Japanese vessels.
- By the fall of 1941, US Military Intelligence broke the code of Japan about the Japanese people located in Hawaii were sending coded messages to Tokyo. By December 6, 1941 the US Government knew the attack on Pearl harbor was going to occur. Then Roosevelt sat on the information not telling the fleet located in Hawaii of the attack until after the attack had started. This was the trigger CFR and Roosevelt needed to get into the WWII.
- US and Germany separate peace agreement. Set up Nazi Werewolves against Russia. This was called Operation Sunshine.
- Russia became aware and went ballistic on Roosevelt and Roosevelt denied.
- Meeting at Fort Hunt. US OSS and Gehlen from Germany met to establish the gladiators (werewolves). German soldiers working in Germany for USA to freeze out Russia. Gladiators spread to Italy in 1945.
- Operation Paperclip – 10,000 Germany Nazi soldiers and high ranking scientists given citizenship in USA.
- The werewolves/gladiators project initial funding came from the House of Rockefeller of \$200M. Covert operation not known by US Government. The purpose of Rockefeller's funding was to pave the way to the New World Order of one government. It was here where the OSS turned to the crime families to assist. Paul E. Helliwell, the OSS chief in China came up with the idea of a union between US Intelligence and the crime families

that would produce conflicts, wars, rebellions, financial upheavals, and an epidemic that would forever alter the tide of world history. The clandestine services were formed.

1945-1950

- The Helliwell Plan was implemented. Opiates sold to China. General Wild Bill Donovan shipped money to Helliwell to set up the trade and designated Helliwell as the man who controlled the pipe line of covert funds for the secret operations throughout Asia. This expenditure from funds provided by the House of Rockefeller was approved by JP Morgan Jr. who was in control of the OSS finances and James Warburg, son of Paul Warburg (the founder of the Federal Reserve Bank in US by Rothschild). The Central bank was now involved in the clandestine operations from their inception.
- The Civil Air Transport (CAT) was formed. The CAT fleet transported weapons to a contingency force of KMT in Burma and when empty they were loaded with drugs headed to China. Helliwell and his troops created the framework that resulted in the formation of Air America.
- Thanks to the Helliwell efforts Burma changed from a minor poppy-cultivating area into the largest opium-producing region of the world.
- CIA begins operations in USA. Col. Albert Carone, a New York City policeman, served the new drug network as “a bagman for the CIA” by paying law enforcement officials to look the other way when drugs were being distributed in Harlem and other black communities. This was the first of many such operations that would sweep across the USA. Carone also collected money for drug payments and money to be laundered by the Vatican from mafia families in New York, New Jersey and Pennsylvania. He became a Grand Knight of the Sovereign Military of Malta – “the military arm of the Holy See.”
- The US government was complicit in the drug trade by evidence that not one major drug bust was conducted by US officials from 1947-1967, despite the rise in heroin addicts from 20,000 to 150,000.
- The shadow government now processed sufficient funds to not only sustain secret armies throughout Europe but also to establish the CIA to do its bidding.

Lucis Trust founded in 1922 as the Lucifer Publishing Company by Alice Bailey – “To encourage study of comparative religion, philosophy, science and art; to encourage every line of thought tending to the broadening of human sympathies and interests, and the expansion of ethical religious and educational literature; to assist or to engage in activities for the relief of suffering and for human betterment; and, in general, to further worthy efforts for humanitarian and education ends.” Bailey’s ultimate objective in establishing Lucis Trust was to bring about one-world religion under the guiding light of Lucifer. The Trust established World Goodwill signed by President Jimmy Carter.
- Creation of UN’s two evil sisters: the International Monetary Fund and the World Bank.

- August 5, 1964 appeared before Congress to gain approval for going to war. He got it. After vote, Johnson said to his undersecretary of state “Hell, those stupid sailors were just shooting at flying fish.” He used Vietnamese sailors shooting at fish as the pretext act against the USA. Over 50,000 USA soldier deaths.
 - Rules of Engagement – US Chemical warfare, could not shoot unless shot upon and could not pursue the enemy into Laos or Cambodia. Bombers could not bomb strategic sites as determined by the Joint Chiefs of Staff. Could not bomb Viet Cong missile sites still under construction.
 - Russia supplied 85% of the Viet Cong military equipment. Johnson Administration, US Department of Defense and the Pentagon sent Rockefeller to meet Khrushchev in Moscow to draft a trade agreement that would extend the most favored nation status within the Soviet Communist Bloc. This determined strategic and non-strategic items and allowed all non-strategic items to be used as weapons of war.
 - The real reason of the Vietnam war was the fact that the CIA wanted the poppy crops which needed more production to fund their secret operations. By 1958, the opium trade in Southeast Asia became so brisk that a second drug-supply line was established by the CIA.
 - In 1967, Theodore Shackley and Thomas Clines became the CIA operatives assigned to establish the heroin refineries with the aid of the Corsican Mafia who permeated Saigon’s underworld.

 - 1971 Planned Parenthood was formed with the financial support of the Rockefeller Brothers Fund. Designed to perform 10,000 abortions a year for an

- Heroin production decrease had to be dealt with by the Military Industrial Complex.
- House of Rockefeller was taking a hit on oil and needed a pipeline for its Union Oil Company and with the decrease of Heroin production the House of Rockefeller was very alarmed. It was the House of Rockefeller that funded the Taliban, gave them the weapons to overthrow the government and opened the flow of heroin trade. The pipeline could not take place unless they had control over the 1,040 mile stretch of land.
- 1998 the American power elite had to setup a more cooperative government in Kabul. It was here that the plot to have a terrorist attack on America and blame Bin Laden. They had to build the frame of the plot. August 7 US embassies in Kenya and Tanzania. August 20, Clinton sent cruise missiles to Afghanistan. Bill Clinton addressed the nation in the Oval office naming Osama Bin Laden as the person responsible of these attacks and that new attacks were in the works. The truth came out about the false flag bombings but MSM would not cover.
- The bombing of the US Embassies was carried out by Ali A. Mohamed, an American who had an impeccable US military record trained at Fort Bragg and worked as an instructor at the Kennedy Special Warfare Center and School until 1989. CIA and Clinton

Administration used the MSM to lay the ground work that Mohamed was a double agent for Al-Qaeda. In fact, Mohamed was CIA agent in East Africa and Kenya.

- Rhodes dream took another shape when in August 1998 Amoco and BP merged putting the House of Rockefeller and the House of Rothschild as partners creating the largest oil company in the world. From this merger billion of dollars were then able to flow into joint military industrial interest.
- In June 1998 the Taliban struck a deal with the Saudi government to send Bin Laden there for jail with the Saudi protection against the US. Saudi Intelligence confided with Clinton Administration that this was a done deal. That was why Clinton sent the cruise missiles after the Embassies bombing to Afghanistan. He sent them a message and it worked.
- The second step in setting up Afghanistan to be invaded was to place Hamid Karzai as the head of the interim Afghanistan government. He was a consultant and lobbyist for Unocal in its negotiations with Taliban and as a CIA operator he funneled money to Mullah Omar.
- The third and final step preparing for invasion was the creation of an incident of enormous proportion that would warrant the planned invasion. That incident came on September 11, 2001. A war without end had now started.
